LOUIS VAN HOUTTE PÈRE

THE ROYAL NURSERIES & SEED ESTABLISHMENT,

GHENT, BELGIUM.

TO VISITORS.

In presenting this Catalogue to our numerous Friends and Patrons we take the opportunity of thanking them for past favors and trust to receive a continuance of their kind commands. Our Establishment is always open to visitors (Sundays excepted) and we cordially invite every one to visit the **LARGEST** and most **EXTENSIVE** Nursery in the world. It can be reached within **ONE** hour by Rail from Antwerp, Ostende or Brussels, and we trust no one will ever miss the opportunity of inspecting one of the largest, most varied and well grown stock of plants ever brought together.

Awarded 34 Medals

at the Ghent International Exhibition 1898.

SPECIAL RATES FOR FREIGHT.

Having made advantageous arrangements with the various Steam Ship Companies for the transmission of goods, matted Baskets or Hampers of an ordinary size, can now be sent direct from GHENT to all the principal ports at **SPECIAL LOW RATES**.

From the various ports to the final destinations, the re-expedition is made at the cheapest rate and by the shortest route.

All **GOODS** travel at "**OWNERS RISK**".

Parcels Post.

Small packages weighing under 3 lbs, 7 lbs and 11 lbs can be sent by **PARCEL POST** at the rate of 1/3, 1/8 and 2/2 respectively, **TO GREAT BRITAIN AND IRELAND**.

Packing.

Packing, in all instances, charged at *cost price*.

Payments

Either by Cheque or P. O. O. to be made **DIRECT TO THE FIRM**.

Catalogues published annually.

- JANUARY. — Begonias, Gloxinias, Stove and Greenhouse Plants, **ENGLISH**.
- JANUARY. — Begonias, Gloxinias and Seeds, **FRENCH**.
- MARCH. — Stove and Greenhouse Plants, Orchids, etc. **FRENCH**.

HYACINTHS

Our collection of Single Hyacinths was awarded the FIRST PRIZE at the Great International Exhibition in Ghent 1898.

CHOICE NAMED SINGLE FLOWERING

The following assortments have been formed for the convenience of those who are desirous to avoid the trouble of making their own selection. For this purpose, the finest varieties have been selected from the whole collection, and great care has been taken in selecting for each assortment, the most distinct varieties.

In ordering kindly state whether required for forcing or for open ground.

							s.	d.

Iris Kämpferi,

Ixia.

IXIAS

Large flowered choice varieties

To be grown in pots in a greenhouse near the glass or in frames, with a good ventilation, except during frosty weather. They flower in June and are well adapted for forcing; 4 or 5 bulbs planted in a pot, in the same manner as Crocuses, give a fine show, and as their flowering season follows that of the Hyacinths and Tulips, they are very useful for indoor decoration.

Assortment	A.	100 bulbs in 25 fine varieties		5	0

Narcissus magni-coronati

HARDY ORCHIDS

Our collection of these beautiful hardy and half hardy plants comprise varieties, which can be cultivated in almost any garden. They require more or less a shady position and must whilst growing never be allowed to suffer from drought. Therein will be found some of the prettiest North American as also South European species, and our collection is one of the most complete brought together. **AWARDED FIRST PRIZES AND SILVER MEDALS AT VARIOUS INTERNATIONAL EXHIBITIONS.**

Sensational NOVELTY

A NEW CREATION OF HARDY AZALEAS

AZALEA MOLLIS X SINENSIS

Novelty of the greatest merit

We have pleasure in recommending with every confidence to our numerous Customers this valuable novelty, which most likely will soon replace the ordinary *A mollis*; these new Azaleas are more free-flowering, their bouquets of flowers much larger, and the colors much brighter and far more varied.

They are of robust habit, perfectly hardy, and in every respect superior to either of the parents.

Awarded First Prizes, Gold and Silver Medals at the principal shows of London and Manchester, as also at the International Exhibition of Dresden 1896, Hamburg 1897 and Ghent 1898.

NAMED VARIETIES:

Anthony Koster (Extra) — Dr Reichenbach
— Emile Liebig — Franz Van der Bom — Hortulanus Witte —
Hugo Koster — N. Beets — T. I. Seidel.

Grafted plants, 3 and 4 years old, full of buds	each	4	0
— — the collection of 8 varieties		28	0
— — 2 and 3 years old, with buds	each	3	0
— — the collection of 8 varieties		20	0
Anthony Koster, separate, most striking yellow.	each	4	0

LATEST NOVELTIES:

Agatha, Tender rose, spotted purple.
Alma Tadema, tender rose, blotched purplish red.
Anna, deep orange.
C. Maarschalk, orange, purple blotched.
Dr. Pasteur, orange and rose, blotched purple.

FRUIT TREES

It is requested to state in orders if we are at liberty to replace :

1st. Such varieties as may be no longer in stock, by others of equal merit and which come into use at the same season.

2nd. As far as concerns the Pears, those varieties which cannot be supplied on Quince, with sorts grafted on the Pear Stock and vice-versa.

All the prices are given for named varieties.

Names and descriptions will be found in our **CATALOGUE N° 280** (Frensch edition), which will be sent on demand.

APPLES

Dwarfs, one year, each : 0/6 — **Espaliers**, 1 tier, each : 1/3 — **Standards**, 6 feet high, our selection, each : 1/9.

APRICOTS NECTARINES and PEACHES

Maiden Trees, 1 year, 0/8 — **Standards**, very fine, our selection, 1/9 — **Espaliers**, 1 year, 1/3

CHERRIES

Maiden Trees, one year . . . each : 0/8 — **Standards**, very strong . . . each : 1/6.

PEARS

Grafted on the PEAR STOCK

The PEAR STOCK only is really well suited for light, sandy or dry soils, and none other lives so long, especially on good deep soil.

Maiden Trees , one year . . . each	0 6	Espaliers , 1 and 2 tiers . . . each	1 6
Standards , strong . . . —	1 9	Standards . . . —	2 9
Pyramids , 2 years . . . —	0 9		

Grafted on the QUINCE

It is a well known fact, the QUINCE, which flourishes best in strong or loamy soil, speedily perishes in a light sandy one, unless it is kept continually damp.

Maiden Trees , one year	Each—s. d.	0 6
The Maiden Trees are the most suitable for horizontal cordons as edgings, and single cordons for exposed trellises. The immense advantage of this latter way of planting cannot be too highly estimated; as for productiveness and facility of culture it is unequalled.		
Pyramids 2 years		0 9
Espaliers , 2 tiers, the best varieties, our selection		1 6

PLUMS

Maiden Trees , one year, strong, each	0 6	Pyramids , 2 years each	0 9

New Perpetual Strawberries with large fruit

ST. ANTOINE DE PADOUE.

This is a cross between St-Joseph and Royal Sovereign, and so far is the finest raised, surpassing in every respect St-Joseph and Jeanne d'Arc, producing larger fruit, of the finest aroma, and being a good keeper renders it one of the most valuable kinds ever introduced.

Strong plants in pots — per dozen, 10/- p. 100 63/-.
Rooted Runners 6/- " " 42/-.

ST. JOSEPH.

This new perpetual bearing Strawberry surpasses in every respect all previous introductions **In fruit all the year round. Berries large, well colored, and of finest flavor.**

We have every confidence in recommending this new Strawberry as being up to above description.

Strong plants : 8/— per 100. 1/6 per dozen.

Obtained an "Award of Merit" by Royal Horticultural Society, Sept. 20th 1898.

Ex. The Garden, Sept. 24th 1898 :

STRAWBERRY ST-JOSEPH. — An excellent medium sized fruit of pale red colour, flesh firm, and with a brisk refreshing flavour. This is a most useful variety, as it prolongs the Strawberry Season, the newly made runners bearing fruit freely, thus making it a valuable autumn kind.

Ex. Journal of Horticulture, Oct. 27th 1898 :

I think there is no doubt we have in this Strawberry a fruit that can and will be turned to good account where ripe Strawberries would be appreciated in October and November, and surely a dish of Strawberries could not fail to be welcome at the time of year named &c. &c.

Cyclamen persicum giganteum var. Papilio.

Plants in pots to flower this year	each	4/0
Fresh Seeds	per packet	2/6
